STRENGTH

- Ability to problem Solving
- Self Motivated
- Attentions to details

CERTIFICATIONS

- Full Stack Java Developer
- Web Developer Internship
- Ms Advanced Excel Course

PROJECT

Enotes Applications :

I implemented a system for live data management using a SQL oracle database. This includes handling real-time data updates .

I developed backend functionalities in classes to handle real-time data updates . This likely involves implementing logic to manage CRUD (Create, Read, Update, Delete) operations on notes.

I created and optimized SQL queries for efficient data retrieval and storage. This ensures that the application performs well even with large amounts of data.

And Also designed and implemented the user interface to display live data updates to end-users. This involves creating visually appealing and responsive interfaces using HTML, CSS& Javascript,Jsp.

DECLARATION

I hereby decalre that the above mentioned details are true to the best of my knowledge and belief
